New HOME high flux
designed bulbs

— Upgrade 2024 —

Azienda

DL HOME è la nuova proposta di Daylight Italia srl, pensata per la **casa** e per **qualsiasi ambiente** che debba essere illuminato con una **soluzione semplice, pratica, ma molto particolare, elegante e di gran classe**.

Abbiamo selezionato alcune tra le più caratteristiche **lampadine** della nuova gamma DL, con le forme più **innovative**, di grande effetto **estetico**, caratterizzate da un **alto flusso** per fare luce, **alte rese cromatiche** e tutte prevalentemente **dimmerabili**.

Abbiamo scelto dei supporti a **soffitto, a parete, da tavolo**; semplici, raffinati, minimali, accattivanti, presentati in un **kit** facile da assemblare e molto pratico.

DL HOME è una **proposta luminosa** che ha come protagoniste le splendide lampadine della gamma DL, facile da gestire, un aiuto ai nostri distributori da mostrare alla clientela con **molte foto ambientate e scelte più rapide**.

Stiamo scardinando i preconcetti legati alla lampadina tradizionale portandola in una nuova dimensione, una nuova concezione. Per noi la **lampadina decora, arreda, emoziona e può essere sostituita**. Per noi l'illuminazione ha valore, non è un volume o semplici numeri da mantenere.

Come DL siamo sempre stati abituati a lavorare duro, a guardare avanti senza farci influenzare da nessuno, con umiltà e riconoscenza verso chi ha creduto nel nostro progetto. Abbiamo sviluppato numerose ed importanti soluzioni che sempre più concorrenti invidiano e temono. Dobbiamo continuare questo cammino, lo faremo con una veste estetica più elegante e signorile. Abbiamo **entusiasmo, passione, competenza, determinazione**. Dovremo sempre avere presenti le nostre origini per non dimenticare l'umiltà con cui ci siamo presentati al mercato. Abbiamo un supporto produttivo all'avanguardia, possiamo vantare tutele su brevetti delle sorgenti, sull'estetica e il design dei prodotti, e siamo supportati anche da importanti studi legali. Abbiamo un team in **ufficio presente e attento, un magazzino fornito e rapido** nella preparazione degli ordini.

Il Catalogo DL Home è una integrazione del Catalogo Generale DL. Contiene un numero limitato di articoli e informazioni. Il catalogo Generale contiene tutta la gamma per comporre il prodotto finito secondo i propri e particolari gusti.

CON QUESTE PREMESSE VI PRESENTIAMO IL NUOVO NUMERO DEL CATALOGO DL HOME,
Buona visione!

Company

DL HOME is the new proposal by Daylight Italia srl, designed for **home** and for **any environment** that has to be illuminated with a **simple, practical, but very particular, elegant and classy solution**.

Some of the most characteristic **bulbs** of DL new range have been selected: bulbs with the most **innovative** shapes, great **aesthetic** effect, characterized by a **high flux** to make light, **high chromatic yields** and most of all **dimnable**.

We chose **ceiling, wall and table** supports; simple, refined, minimal, but very captivating, these items are proposed in an easy-to-assemble **kit**.

DL HOME is a **lighting proposal** whose protagonists are the amazing light bulbs belonging to DL range; easy to manage, DL HOME products are a real help for our distributors, who can show the range to their customers, supported by **many set photos**.

We are undermining the preconceptions linked to the traditional light bulb, bringing it into a new dimension, a new concept. In our opinion **light bulb decorates, furnishes, excites and can be replaced**. In our opinion, lighting has value, it is not a mere matter of sales volume.

We as DL, have always been used to working hard, looking ahead without being influenced by anyone, with humility and gratitude towards those who believed in our project. We have developed many important solutions, that our competitors envy and fear. We have to go on pursuing this path, we will do it with a more elegant and refined aesthetic.

We have **enthusiasm, passion, competence, determination**. We always keep in mind our origins in order not to forget humility, that has been our hallmark since the beginning.

We have state-of-the-art production support, we can boast protection on sources' patents, on aesthetics and product design, and we are also supported by major law firms. We have a very **attentive and careful team in our office, a well-stocked warehouse and a very quick** order preparation.

DL Home Catalog is an integration of DL General Catalog. It contains a limited number of articles and information. The General catalog contains the whole range to compose the finished product according to one's own particular tastes.

WITH THESE PREMISES, WE ARE GLAD TO INTRODUCE YOU THE NEW NUMBER OF DL HOME CATALOG,
Enjoy your reading!

Ballerina

Lampada portatile a batteria innovativa.

Design, armonia e colore in un equilibrio visivo straordinario. Con la sua sorprendente autonomia porti la luce dove vuoi, con un tocco di eleganza, colore e praticità senza pari. Soluzione eco-friendly: ogni parte è intercambiabile. Sei vivaci modelli colorati tra cui scegliere, questa lampada si adatta perfettamente a qualsiasi stile di arredamento. Il cappello mobile coordinato può essere facilmente orientato per creare diverse atmosfere e direzionare la luce dove serve.

Ballerina

Innovative battery-powered portable lamp

Design, harmony and color in an extraordinary visual balance. You can bring the light wherever you want, with a touch of unparalleled elegance, color and practicality. Eco-friendly solution: each part is interchangeable. You can choose among six vibrant colorful patterns, this lamp is perfectly suited to any decor style. The matching movable hat can be easily oriented to create different atmospheres and direct the light where it is needed.

Mr Magoo

Lampada portatile a batteria che utilizza innovative lampadine led a 5V. **Le batterie sono 4 Stilo AA da 1,2V NiMH ricaricabili (non incluse).**

Il micro interruttore invisibile sotto la base rende il corpo molto pulito esteticamente.

- Innovativa ed economica
- Semplice da utilizzare e cambio batteria rapido
- Riutilizzabile all'infinito, poiché ogni parte è sostituibile
- Alti flussi, fino a 110lm
- Lunga durata fino e oltre 12h di autonomia

*Battery-operated portable lamp that uses innovative 5V LED bulbs. **The batteries are 4 AA 1.2V NiMH rechargeable (not included).***

The invisible micro switch under the base makes the body very clean aesthetically.

- *Innovative and low cost*
- *Easy to use, quick battery change*
- *Infinitely reusable, as every part is replaceable*
- *High flux up to 110lm*
- *Long life up to and over a range of 12 hours*

Satellite

Lampadina rivoluzionaria destinata ad aprire nuovi orizzonti nel settore dell'illuminotecnica.

Satellite è una lampadina LED con fascio di luce orientabile dotata di un semplice e geniale meccanismo magnetico che rende possibile direzionare dall'esterno il riflettore contenuto all'interno del bulbo di vetro, indirizzando il fascio dove serve.

Grazie a questa intuizione, la lampadina si presta anche a usi che richiedono una luce "personalizzata" per assecondare il momento o illuminare oggetti con delicati effetti di luce e ombra sulle superfici, in modo flessibile, giocoso ed efficace. È perfetta sia per illuminare scrivanie e comodini sia per l'illuminazione ambientale.

L'elevato CRI permette una straordinaria definizione dei colori dell'ambiente.

Revolutionary light bulb meant to open new horizons in the lighting sector.

Satellite is a LED bulb with an adjustable light beam equipped with a simple and ingenious magnetic mechanism, which makes it possible to direct the reflector contained in the glass bulb, by directing the beam where it is needed.

Thanks to this intuition, the bulb is also meant to give a "personalized" light to illuminate objects with delicate light and shadow effects on surfaces, in a flexible, playful and effective way. It is perfect both for illuminating desks and bedside tables and for environment lighting.

The high CRI allows an extraordinary definition of the environment colors.

Elba

Composizione ad una caduta con un portalampada dal design registrato, studiato per creare un abbinamento più equilibrato e armonioso con la lampadina. Le lampadine abbinare possono essere di piccole, grandi o molto grandi dimensioni. Abbiamo selezionato diverse sorgenti per coprire il più ampio spettro di esigenze estetiche, tutte molto eleganti che sfruttano il contrasto tra le finiture porcellana o trasparenti delle lampadine e il nero, bianco e l'ottone dei portalampada. Sono particolarmente adatte per illuminare stanze, camere, locali in genere privati o commerciali di piccole o grandi dimensioni grazie agli alti flussi emessi dalle sorgenti. Questa composizione può accompagnarne altre o illuminare da sola. È possibile scegliere tra sorgenti con lampadine effetto porcellana con luce uniforme e confortevole, oppure cristallo con effetto brillante. È possibile variare in tutte le combinazioni l'intensità della luce con i nostri variatori o aggiungere i nostri comandi a controllo vocale.

One single pendel composition with one lamp holder and registered design, studied to create a combination more balanced and harmonious with the bulb. The bulbs combined can be small, large or very large size. We have selected several sources for cover the widest spectrum of aesthetic needs, all of them very elegant that take advantage of the contrast between the finishes porcelain or transparent light bulbs and black, white the brass of the lamp holders. They are particularly suitable to illuminate rooms, bedrooms, rooms in general private or commercial small or large thanks to the high flows emitted by the sources. This composition can accompany others or illuminate alone. It's possible choose between sources with porcelain effect bulbs with uniform and comfortable light, or crystal with brilliant effect. It is possible to vary in all combine the intensity of light with our dimmers or add our voice-controlled commands.

Tubosa E27

Composizione ad una caduta con un portalampada tubolare molto pronunciato realizzata in Italia ed una lampadina di piccole o molto grandi dimensioni. Abbiamo selezionato diverse sorgenti per coprire il più ampio spettro di esigenze, tutte molto eleganti che sfruttano il contrasto tra il nero e il bianco uniforme o trasparente brillante. Sono particolarmente adatte per illuminare angoli, postazioni singole, stanze intere, camere o sale. Questa composizione può accompagnare altre o illuminare da sola. È possibile scegliere tra sorgenti con lampadine effetto porcellana con luce uniforme e confortevole, oppure cristallo con effetto frizzante, oppure con luce intensa con le lampadine della serie luce. È possibile variare in tutte le combinazioni l'intensità della luce con i nostri variatori o aggiungere i nostri comandi a controllo vocale.

One drop composition with a very pronounced tubular lamp holder made in Italy and a small or very large bulb. We have selected different sources to cover the widest spectrum of needs, all very elegant, exploiting the contrast between black and uniform or bright transparent white. They are particularly suitable for illuminating corners, single stations, entire rooms, bedrooms or halls. This composition can illuminate alone or be installed with others. It is possible to choose between sources with porcelain-effect bulbs with uniform and comfortable light, or crystal with a sparkling effect, or with intense light with the light series bulbs. It is possible to vary the intensity of the light in all combinations with our dimmers or add our voice-controlled commands.

Anello

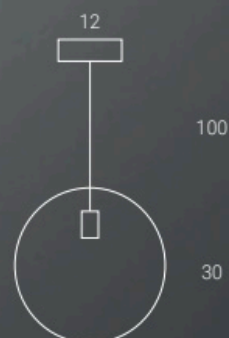

Composizione ad una caduta con un porta lampada ad anello di medie dimensioni realizzato in Italia e una lampadina di medie dimensioni. Indicata per ambienti di piccole o medie dimensioni, camere, sale, hall, angoli che devono essere completati da una proposta luminosa particolare. Abbiamo selezionato diverse lampadine: porcellana per una luce molto confortevole, cristallo per una luce briosa, milky per una luce decisa.

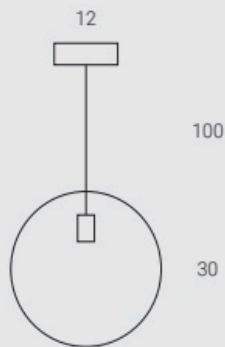

One-drop composition with a medium-sized ring lamp holder made in Italy and a medium-sized bulb. Suitable for small or medium-sized environments, bedrooms, halls, corners that must be completed by a particular lighting proposal. We have selected different bulbs: porcelain for a very comfortable light, crystal for a lively light, milky for a strong light.

Napoli

Composizione ad una caduta composta da un pendel con paralume di medie dimensioni a disco e una lampadina di medie dimensioni. Indicata per ambienti piccoli o medi come cucine o sale. Questa soluzione dona un tocco di eleganza, nonostante gli elementi essenziali e puliti utilizzati. Grazie agli abbinamenti sfiziosi delle sorgenti la sua luce non stancherà mai. Semplice, elegante, luminosa, di grande effetto estetico ad un prezzo modesto. È possibile variare in alcuni casi l'intensità della luce con i nostri variatori o aggiungere i nostri comandi a controllo vocale.

One-drop composition made by a pendant with a medium-sized disc lampshade and a medium-sized bulb. Suitable for small or medium-sized environments such as kitchens or rooms. This solution gives a touch of elegance, despite the essential and clean elements used. Thanks to the delicious combinations of the sources, its light will never tire. Simple, elegant, bright, with a great aesthetic effect at a modest price. In some cases, it is possible to vary the intensity of the light with our dimmers or add our voice-controlled commands.

Milano

Composizione a 2 cadute composta da un rosone piccolo e 2 lampadine di medie, medio/grandi dimensioni. Indicata per tutti gli ambienti di piccole o medie dimensioni come sale, camere, cucine, hall, dove si vuole aggiungere un tocco di gran classe all'ambiente, lussuoso, ma funzionale. Questa composizione si adatta facilmente a tutti gli ambienti e garantisce una bellezza estetica unica, una sfilata ipnotica, un oggetto di lusso che non stancherà mai di essere guardato. Abbiamo selezionato lampadine con finitura simil porcellana che emettono luce in modo confortevole con una qualità altissima; oppure lampadine serie cristallo che mantengono sempre una resa cromatica elevatissima, ma che hanno un effetto più frizzante, vivace; oppure lampadine con luce più pungente, decisa. È possibile variare in alcune combinazioni l'intensità della luce con i nostri variatori o aggiungere i nostri comandi a controllo vocale.

Composition with 2 falls composed of a small ceiling rose and 2 medium, medium/large bulbs. Suitable for all small or medium-sized environments such as halls, bedrooms, kitchens, where a touch of class is added to the luxurious but functional environment. This composition easily adapts to all environments and guarantees a unique aesthetic beauty, a hypnotic fashion show. We have selected bulbs with a porcelain-like finish that emit light comfortably with a very high quality; crystal series bulbs that always maintain a very high chromatic yield and have a more sparkling, lively effect; bulbs with a sharper, more decisive light. It is possible to vary the intensity of the light in some combinations with our dimmers or add our voice-controlled commands.

Composizione a 3 cadute composta da un rosone tondo piccolo e 3 lampadine grandi o medie. Indicata per ambienti giovanili, piccoli o medio/piccoli come camere, cucine, angoli che devono essere illuminati o ravvivati. Questa soluzione illumina lo spazio con discrezione e semplicità ad un costo modesto. È possibile scegliere tra una luce più calda con una qualità della luce elevata oppure una luce più intensa. È possibile variare in entrambi i casi l'intensità della luce con i nostri variatori o aggiungere i nostri comandi a controllo vocale.

Composition with 3 falls composed of a small round canopy and 3 large/medium bulbs. Suitable for young, small or medium/small environments such as bedrooms, kitchens, corners that need to be illuminated or revived. This solution illuminates the space with discretion and simplicity at a modest cost. You can choose between warmer light with high light quality or brighter light. In both cases, it is possible to vary the intensity of the light with our dimmers or add our voice-controlled commands.

Venezia

Composizione a 5 cadute composta da un rosone piccolo e 5 lampadine medie. Indicata per ambienti moderni di medie come sale, salotti, camere, cucine, hall, dove si richiede una luce interessante, non banale, in grado di mantenere sempre l'unicità della composizione. Questa combinazione illumina l'ambiente con decisione, semplicità e un costo modesto. È possibile scegliere tra sorgenti puntiformi, sorgenti direzionali o sorgenti intense ad ampia emissione con luce brillante e allegra. È possibile variare in tutte le combinazioni l'intensità della luce con i nostri variatori o aggiungere i nostri comandi a controllo vocale.

Composition with 5 falls composed of a small ceiling rose and 5 medium bulbs. Suitable for medium-sized modern environments such as halls, living rooms, bedrooms, kitchens, where an interesting, non-trivial light is required, able to always maintain the uniqueness of the composition. This combination illuminates the environment with decision, simplicity at a modest cost. You can choose from point sources, directional sources or intense broad-emission sources with bright and cheerful light. It is possible to vary the intensity of the light in all combinations with our dimmers or add our voice-controlled commands.

Composizione a 7 cadute, molto ampia, composta da un rosone piccolo e 7 lampadine di medie dimensioni. Indicata per ambienti di medie, medio/grandi dimensioni come sale da pranzo, camere, salotti, ovunque si voglia distribuire in maniera più uniforme la luce. Abbiamo selezionato per questa combinazione lampadine serie cristallo con luce di elevata resa cromatica e con un effetto brillante, frizzante, cerimonioso; oppure lampadine dall'emissione puntiforme, più sobrie, ma che trasformano l'ambiente in un enorme cielo stellato. È possibile variare in tutte le combinazioni l'intensità della luce con i nostri variatori o aggiungere i nostri comandi a controllo vocale.

Composition with 7 pendants, very large, consisting of a small rose window and 7 medium-sized bulbs. Suitable for medium, medium / large-sized environments such as dining rooms, bedrooms, living rooms, wherever you want to distribute the light more evenly. For this combination we have selected crystal series light bulbs with high chromatic yield light and with a brilliant, sparkling, ceremonious effect; point-like light bulbs, more sober, but which transform the environment into a huge starry sky. It is possible to vary the intensity of the light in all combinations with our dimmers or add our voice-controlled commands.

Roma

Composizione a 3 cadute composta da un rosone grande e 3 lampadine uguali grandi o molto grandi. Particolarmente adatta ad ambienti voluminosi, di grandi dimensioni come sale, salotti, camere, hall. Questa soluzione riempie l'ambiente. È possibile scegliere tra una combinazione di lampadine dal design unico associate ad un flusso importante, e una combinazione di lampadine dal design elegante con un confort visivo eccezionale. In particolare si distinguono le combinazioni con lampadine dalla finitura tipo porcellana che donano alla struttura un look molto raffinato, ricercato, ed hanno un effetto di luce diffusa, uniforme, molto rilassante, ma allo stesso tempo intensa. Le lampadine con finitura tipo cristallo hanno una luce più frizzante, briosa, non fastidiosa. Entrambe le soluzioni offrono una elevata resa cromatica e la possibilità di variare l'intensità luminosa con i nostri variatori. Completano l'offerta soluzioni con lampadine ad ancora più alto flusso, sempre con la possibilità di variare il flusso o aggiungere i nostri comandi a controllo vocale, ad un costo modesto.

Composition with 3 falls composed of a large rose and 3 identical large/very large bulbs. Particularly suitable for large environments such as halls, lounges, bedrooms. You can choose among a combination of uniquely designed bulbs associated with an important flow, or a composition made of elegantly designed bulbs with exceptional visual comfort. These combinations stand out for porcelain-like finish bulbs, that give the structure a very refined look, and have a diffused, uniform, very relaxing, but at the same time intense light effect. The bulbs with a crystal-like finish have a more sparkling, lively, not annoying light. Both solutions offer a high color rendering and the possibility of varying the light intensity with our dimmers. The offer is completed by solutions with even higher flux bulbs, with the possibility of always varying the flux or adding our voice-controlled commands, at a modest cost.

Firenze

Composizione a 5 cadute composta da un rosone grande tondo e 5 lampadine di dimensioni normali miste. Indicata per ambienti di dimensioni medie/medio piccole come sale, salotti, camere, angoli che devono essere valorizzati con un tocco di brillantezza o colore. È possibile scegliere tra combinazioni con un tocco di colore, con un tocco più classico, oppure più moderno. L'abbinamento tra lampadine con effetto porcellana bianco e quelle colorate rallegrano l'ambiente e lo rendono gioioso, accattivante, curioso. Tutte le soluzioni offrono un'elevata resa cromatica e la possibilità di variare l'intensità luminosa con i nostri variatori o aggiungere i nostri comandi a controllo vocale.

Composition with 5 drops consisting of a large round rosette and 5 mixed-size bulbs. Suitable for medium/small-sized environments such as halls, living rooms, bedrooms, and corners that need to be enhanced with a touch of brightness or color. You can choose from combinations with a touch of color, a more classic touch, or a more modern one. The combination of white porcelain-effect bulbs and colored ones enlivens the environment and makes it cheerful, captivating, and curious. All solutions offer high color rendering and the possibility to vary the light intensity with our dimmers or add our voice-controlled commands.

Torino

Composizione a 2 cadute composta da un rosone rettangolare di grandi dimensioni e 2 lampadine di dimensioni medie e grandi. Indicata ambienti di medie dimensioni in particolar modo per sale riunioni, sopra tavoli, cucine. Con questa soluzione possiamo scegliere tra diverse proposte di lampadine che abbinano una luce preziosa, confortevole oppure funzionale con alto flusso, oppure con una forma più moderna, ma sempre elegante. È possibile variare in tutti i casi l'intensità della luce con i nostri variatori o aggiungere i nostri comandi a controllo vocale.

Composition with 2 falls composed of a large rectangular canopy and 2 medium and large bulbs. Suitable for medium-sized environments, especially for meeting rooms, kitchens, can be installed above tables. With this solution we can choose among different proposals of bulbs that combine a precious, comfortable and functional light with high flux, or bulbs having a more modern, but always elegant shape. It is possible to vary the intensity of the light in all cases with our dimmers or add our voice-controlled commands.

Catania

Composizione a 7 cadute composta da un rosone rettangolare di grandi dimensioni e 7 lampadine medie. Indicata per ambienti di grandi dimensioni, come saloni, locali di ricevimento, hall, sopra tavoli, sale riunioni. Questa soluzione illumina decisamente lo spazio, ma mantiene la particolarità di donare all'ambiente eleganza e raffinatezza. Possiamo abbinare alla struttura una luce confortevole con le lampadine effetto porcella confortevoli, oppure una luce più brillante con le lampadine cristallo, oppure avere semplicemente luce con le lampadine tradizionali. È possibile variare in tutti i casi l'intensità della luce con i nostri variatori o aggiungere i nostri comandi a controllo vocale.

Composition with 7 falls composed of a large rectangular canopy and 7 medium bulbs. Suitable for large environments, such as lounges, reception rooms, halls, above tables, meeting rooms. This solution definitely illuminates the space by giving the environment elegance and refinement. We can combine the structure with comfortable porcelain-effect bulbs, or a brighter light with crystal bulbs, or simply traditional bulbs. It is possible to vary the intensity of the light in all cases with our dimmers or add our voice-controlled commands.

S14D

Composizione essenziale da parete e sospensione. La lampada è costituita da un nuovo portalampada S14d elegante cilindrico che permette l'installazione sia verticale che a sospensione. La versione a parete ha il grande vantaggio di avere un'IP44, mentre la versione a sospensione è studiata per creare un grande impatto visivo. Grazie alla linearità dell'emissione luminosa tipica delle lampadine con attacco centrale S14d, l'elevata resa cromatica e il flusso potenziato, in aggiunta alle particolari finiture del vetro (trasparente, effetto porcellana o trasparente rigato), rendono il prodotto particolarmente adatto per dare importanza all'ambiente con una grande scenografica. I delicati riflessi completano il prodotto rendendolo di gran classe. E' possibile variare l'intensità della luce con i nostri variatori o aggiungere i nostri comandi a controllo vocale.

Essential wall and pendant composition. The lamp consists of a sleek cylindrical S14d lamp holder that allows for both vertical and pendant installation. The wall version has the great advantage of being IP44 rated, while the pendant version is designed to create a striking visual impact. Thanks to the linearity of the light emission typical of bulbs with central S14d attachment, the high color rendering, and the enhanced flux, in addition to the special glass finishes (transparent, porcelain effect, or striped transparent), make the product particularly suitable for enhancing the environment with a great scenic effect. The delicate reflections complete the product, making it very classy. It is possible to dim the light intensity with our dimmers or add our voice-controlled commands.

Genova

Composizione essenziale da parete di piccole dimensioni, composta da un supporto E27 e la lampadina DASH dalla caratteristica forma a disco piatto la cui luce è ricca di effetti e riflessi oltre ad avere una elevata resa cromatica. La combinazione crea una struttura elegante, di classe, molto particolare e che accompagna il cammino di una persona. Adatta come luce scale, per illuminare o arredare una parete, un corridoio. È possibile variare l'intensità della luce con i nostri variatori o aggiungere i nostri comandi a controllo vocale.

Essential wall composition of small dimensions, composed of an E27 support and the DASH bulb with a characteristic flat disc shape whose light is rich in effects and reflections as well as having a high color rendering. The combination creates an elegant, classy, very particular structure that accompanies the path of a person. Suitable as a stair light, to illuminate or decorate a wall, a corridor. It is possible to vary the intensity of the light with our dimmers or add our voice-controlled commands.

Genova 02

Composizione basic da parete e soffitto di dimensioni minime, composta da un supporto E27 in plastica elegante moderno e la lampadina DASH. I suoi riflessi creano giochi di luce molto gradevoli. Resa cromatica molto alta come gran parte della gamma DL .

La combinazione crea una struttura finita elegante, di classe, molto particolare e che accompagna il cammino di una persona. Utile per illuminare o arredare una parete, un corridoio. E' possibile variare l'intensità della luce con i nostri variatori o aggiungere i nostri comandi smart a controllo vocale.

Basic wall and ceiling composition of minimal dimensions, consisting of a sleek modern plastic E27 support and the DASH bulb. Its reflections create very pleasant light effects. High color rendering as much of the DL range. The combination creates an elegant, classy, very distinctive finished structure that accompanies a person's path. Useful for illuminating or decorating a wall, corridor. It is possible to dim the light intensity with our dimmers or add our voice-controlled smart commands.

Gioconda

Lampada a plafone di importante dimensione, essenziale ed elegante. Studiata per poter utilizzare lampadine di grandi dimensioni anche in ambienti con soffitti bassi.

Abbiamo selezionato le sorgenti con le più alte prestazioni e forme nuove in grado di creare combinazioni nuove, molto particolari, e donare all'ambiente eleganza e un carattere deciso.

La soluzione è particolarmente adatta per illuminare stanze, sale, camere, locali in genere privati o commerciali di medie o grandi dimensioni grazie agli alti flussi emessi dalle sorgenti. È possibile scegliere tra sorgenti con lampadine effetto porcellana con luce uniforme e confortevole, oppure cristallo con effetto brillante. È possibile variare in tutte le combinazioni l'intensità della luce con i nostri variatori o aggiungere i nostri comandi a controllo vocale.

Ceiling lamp with important size, essential and elegant. Designed to be able to use large bulbs even in rooms with low ceilings.

We have selected the sources with the highest performance and new shapes capable of creating new, very particular combinations, and giving the environment elegance and a strong character.

The solution is particularly suitable for lighting rooms, halls, bedrooms, generally private or commercial medium or large thanks to the high lumens emitted by the sources. It's possible to choose between light sources with porcelain effect bulbs with uniform and comfortable light, or crystal with brilliant effect. It is possible to dim the intensity of light with our dimmers.

Punti luce

Composizione essenziale da tavolo di piccole dimensioni, composta da una base di appoggio E27 interamente realizzata in Italia e una lampadina con effetto simil porcellana dalla luce uniforme, confortevole e dall'alta resa cromatica. La combinazione crea una struttura elegante, di classe, ma che genera un flusso luminoso importante per la finalità di utilizzo. Adatta come luce da comodino, da scrivania, da tavolo per leggere o lavorare o semplicemente per arredare.

Small table essential composition, consisting of an E27 support base entirely made in Italy and a porcelain-like effect bulb with uniform, comfortable light and high color rendering. This combination creates an elegant, classy structure, which generates an important luminous flux for the purpose of use. Suitable as a bedside, desk, table light for reading or working, or simply for decorating.

Punti luce 02

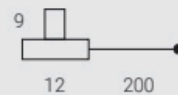

Composizione essenziale da tavolo di piccole dimensioni, composta da una base di appoggio E27 e molteplici lampadine medie della gamma DL. Le particolari lampadine utilizzate e la semplice base utilizzata sono sufficienti a creare una lampada finita molto caratteristica, bella alla vista e comunque utile per creare un'atmosfera luminosa unica, ma sufficiente per leggere in qualunque condizione. L'utilizzo di molteplici tipologie di lampadine crea soluzioni per tutte le esigenze pur garantendo un costo contenuto.

Essential table composition of small dimensions, consisting of an E27 support base and multiple medium light bulbs from the DL range. The particular bulbs used and the simple base used are enough to create a very characteristic finished lamp, useful for creating a unique luminous atmosphere, bright enough for reading in any condition. The use of different models of light bulbs creates solutions for all needs, while ensuring a low cost.

Maddalena

Composizione da tavolo di medie dimensioni, composta da una base di appoggio E27 grande realizzata in Italia e una lampadina di grandi dimensioni. Adatta come lampada da mobile o tavolo per sale, camere, hall. Abbiamo selezionato 3 lampadine, una con effetto porcellana con luce uniforme e confortevole per un effetto di classe, ma rilassante; una con effetto cristallo per una luce frizzante, ma lussuosa; una coriandolo nera sfumata per un effetto intrigante ed estremamente elegante. Qualità della luce eccellente.

Medium-sized table composition, consisting of a large E27 support base made in Italy and a large bulb. Suitable as a furniture or table lamp for halls, bedrooms, halls. We have selected 3 light bulbs, one with a porcelain effect with uniform and comfortable light for a classy but relaxing effect; one with a crystal effect for a sparkling but luxurious light; a shaded black Coriandoli for an intriguing and extremely elegant effect. Excellent light quality.
