Extreme Collection

PAN_06

Estetica contemporanea e funzionalità avanzate sono i caratteri principali della collezione Extreme. Diverse le tipologie d'installazione: track, parete-soffitto, incasso e semi-incasso. Una gamma di prodotti che garantisce installazioni dal marcato carattere ed alto standard tecnologico. La generatrice formale, apparentemente semplice e dalle ridotte dimensioni, diventa il fulcro su cui installare tecnologie e colori che definiscono una proposta di alto contenuto.

Contemporary aesthetics and advanced functionality are the main characters of the Extreme collection. Different types of installation: track, wall-ceiling, recessed and semi-recessed. A range of products that guarantees installations with a marked character and high technological standard. The formal generator, seemingly simple and small in size, becomes the fulcrum on which install technologies and colors that define a proposal of high content.

PAN_07 lighting evolution

Il proiettore Extreme è disponibile in diverse configurazioni: su binario, plafone parete-soffitto, incasso e semi-incasso. E' una collezione trasversale ed integrata. Molteplici idee per un comune utilizzo. Sono disponibili ottiche ed alimentazioni per assolvere ai diversi compiti d'illuminazione. I colori, ottenuti con trattamenti speciali dell'anello in alluminio qualificano marcatamente gli ambienti in cui vengono installati.

The Extreme projector is available in various configurations: track-mounted, ceiling/wall-mounted, recessed, and semi-recessed. It's a versatile and integrated collection offering multiple ideas for common use. Various optics and power supplies are available to meet different lighting needs. The colors, achieved through special treatments of the aluminum ring, distinctly enhance the environments where they are installed.

Sinergy Collection

PAN_32

Compatto e minimale, Sinergy si pone ai vertici di categoria nel rapporto flussi luminosi e dimensioni. Scelte tecniche d'eccellenza si allineano alle richieste del mercato. Viene proposto in due potenze 18W e 28W. La versione 18W garantisce efficienze decisamente elevate.

Compact and minimal, Sinergy ranks at the top of its category in the balance between luminous flux and dimensions. Excellent technical choices align with market demands. It's offered in two powers: 18W and 28W. The 18W version ensures significantly high efficiencies.
